WORK EXPERIENCE

Hyconsoft India Private Limited - Associate Software Engineer
Bengaluru, India 01/2021-Current

- Results-driven JavaScript developer with over 3 years of experience in building web and mobile applications using **React JS, Vue JS, Flutter, and React-Native**. Proven track record of delivering high-quality solutions and improving user experiences.
- Developed and maintained responsive **web applications** using React JS and Vue JS, ensuring cross-browser compatibility and optimal performance.
- Implemented efficient state management solutions with **Redux and Vuex**, resulting in a 20% reduction in data-fetching times.
- Created feature-rich mobile apps for **Android and iOS using Flutter**, delivering a consistent user experience across platforms.
- Leveraged React-Native to build hybrid mobile apps, optimizing code sharing and reducing development time.
- Utilized **Postman** to design, test, and document APIs, ensuring robust and reliable communication between front-end and back-end systems.
- Proficient in using **Git and GitHub** for version control.
- Experience with build tools like **Jira and ClickUp**.
